EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eric LaMorte on 10/14/04.

The application has been amended as follows:

In the specification, on page 16, line 15, the word "suction" has been deleted.

In the specification on page 17, line 11, the word "suction" has been deleted.

In claim 9, line 6, after the word "mechanism", the phrase -- , having two components being disposed along said central axis, -- has been inserted.

In claim 9, line 6, after the word "body", a comma -- , -- has been inserted.

The following is an examiner's statement of reasons for allowance: The prior art teaches a plurality of shell sections that join along at least one joint line to form a generally spherical body, the shell sections being symmetrically disposed around a central axis, the spherical body bisected by an imaginary equatorial plane that is perpendicular to the central, the at least one joint line is in a plane that is perpendicular to the equatorial plane, connector mechanism having two components that temporarily connect when brought into abutment and the shell sections are flexible and enables the spherical body to be compressed into a non-spherical shape; however, the prior art fails

to teach or suggest each of said components being disposed along the central axis on opposite sides of the spherical body, the shells comprised of end hubs and a plurality of shell sections joined together by said end hubs, wherein the plurality of shell sections meet along joint lines and a connection mechanism coupled to the end hubs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bena Miller whose telephone number is 703.305.0643. The examiner can normally be reached on Monday-Friday.
